United Way Announces Lead Partners for Collaborative Impact Model

WHO: United Way of Greater Toledo (UWGT)
Healthy Lucas County
Local Initiatives Support Corporation (LISC) Toledo
Lucas Metropolitan Housing Authority (LMHA)

WHAT: In January of this year, United Way of Greater Toledo (UWGT) called on community nonprofits to apply as a “lead partner” and head its community work in one of the following areas: financial stability, health or shelter / housing stability.

UWGT is proud to announce those leads, who are LISC Toledo (financial stability,) Healthy Lucas County (health) and LMHA (shelter / housing stability.)

UWGT’s “Collaborative Impact Model” is focused on creating deeper, interactive partnerships across Lucas County to better-serve those in need. Lead partners will work with UWGT funded program leaders, community volunteers, experts and other key individuals.

Lead partners were chosen based on returned applications, extensive interviews and approval from UWGT’s volunteer Community Impact Cabinet, Community Solutions Team and UWGT’s Board of Directors.
