Your support matters!

"I moved from Michigan after my divorce, and I found myself homeless. So I called my aunt, who told me to call 211. I went into a shelter because I found it hard to get my own place - working a full-time job, but without a whole lot of wages. So that's what made me reach out to 211 - to try to get my feet planted somewhere so that I could save money. I was really good at saving my money, but it just wasn't easy to do. Now, I am a Community Resource Advisor for United Way 211 - and I have purpose, more than just the paycheck. Without 211, a lot of people wouldn't know what to do. I'm truly grateful."

- Candace, United Way 211

"The YMCA of Greater Toledo has been a long-time, committed partner with the United Way of Greater Toledo. We've worked together for decades to solve the most pressing needs in our community. Support from the United Way - through grants, current data on community needs, or connecting volunteers to our organization - helps the Y provide equitable and accessible programs and services to everyone in our community."

- Gina, YMCA of Greater Toledo

"Toledo GROWs is proud to partner with United Way and other funded agencies as we work together toward improved quality of life for all in our community. We have particularly enjoyed the opportunities to share our story with United Way's Affinity Groups. The members of these groups are genuinely interested in learning about the need in our community, the work we and other agencies are doing to meet the need, and how they as individuals can join in the effort."

**- Yvonne,
Toledo GROWs**
